

HARINGVLIET 62

ROTTERDAM

Jan 20th 1920.

P
My dear Mrs. Sellow and Kathleen, thinking afterwards
of my coming to the Station Thursday Morning at
8 o'clock, I think you were quite right indeed,
telling me it was too early! - Not that I am afraid of
being early - Not at all - but these meetings at a
Station, for only a few minutes, in the hurrying of the
Crowd - are not of great value for dear friendship feelings!
And so it is with these few lines I send you once
more all my love and friendship, assuring you once
more how immensely I enjoyed every hour spent with
you - Dec 11th, 12th, (our lovely Morning hours - 10th), and now?
Last not least, for it seems that wonderful friendships
has worked quite for itself during these three weeks, and had
made remarkable progress - didn't you think so also?
That dear luncheon last Saturday with the Calus.
Nice walk to the Station... Many, many thanks to both

of you - not to speak of the gratitude in our hearts,
for you, dear Kathleen, for having given us again
these joys of a higher sphere, so difficult to
express - but so unforgettable, because they are divine -
Your beautiful orchids are quite fresh still, and
will this afternoon be admired - if at least he
is intelligent enough "to look at them - by...
Lyne Roninklyke Hooprid, Peris Hendrik " -
who is coming to us for tea, as he does rather often -
an honour - May be! - a pleasure ???
I wrote to charming Mrs. Burton, that you would
stay for a week at the Regina Hotel - and that
I recommended you warmly to her as dear friends
of the Harigollet: if she has time and opportunity,
surely you will hear from her. Her address is
4 Avenue Suffren, but it seems to me, it
would be better you awaited some message from
her. And now goodbye, hope you will
enjoy Paris - and be satisfied with Switzerland!

And that we may meet again in Autumn. Blessed remembrance
from my husband and with a hearty kiss to both of you.

Very affectionately, yours

Elizabeth G. Barrett

And especially I forget to thank for the book, 'dearly desired' -

Yours devotedly!

Lucy.

And, my dearest, I should be very happy with a photo!
and if you like it, would send you some when
you are back in England.
